President's Message

Kurt Tennyson, CDT

2018

Happy Father's Day June 17th

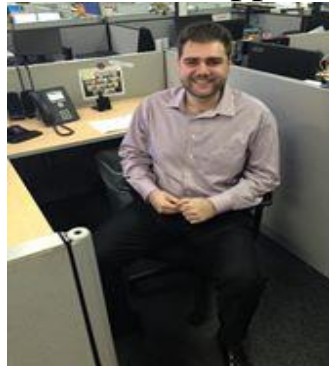

Tennyson Study Club gives back to our industry. PCC graduation June 14th the two students receiving TSC membership for 1 year are Taron and Parbi

Renewal of Tennyson Study Club dues \$210 made out to Tennyson Study Club. This includes your \$35 annual campus insurance fee which we will pay to the school. Guests pay \$35 to cover the liability insurance fee for this meeting.

**Happy Birthday to Chris Chahrestan June 30th.
Lecturing on your birthday!!!**

Chris Chahrestan
Cad/Cam Senior
Technical Support

Lucky for us Chris has agreed to speak for the Tennyson Study Club. When lab owners or employees have a problem designing a crown, bridge, surgical guide, printed model ,etc and basic support person is also stumped they call Chris to the rescue. When Chris logs onto your computer we now have the man that has experienced every problem and knows how to resolve the problem to get the job done.

Argen recently added Roland mills to their customers and asked Chris to provide setup and support for the in house mills. Chris is open to any and all questions concerning 3 Shape software such as Implant Studio, Smile Design, Implant abutment, Trios scan etc....There is an affordable way for 1 person lab to start scanning.

Chris providing 2 day training at Pasadena City College to all faculty and students.

Thank You to
Olga Ramadan and Raffi
Aghvinian for our last meeting
